SUBJECT INDEX FOR VOLUME 38, 1974

A

Abstracts
  Southern Section, A.S.A.S., 213
  Western Section, A.S.A.S., 1319
Acids, acetic and propionic
  Bactericidal properties of, on park carcasses, 515
Acrosome morphology of boar spermatozoa
  During *in vitro* aging, 113
ACTH in rabbits, 1. Effect of
  Preslaughter treatment affecting intramuscular and plasma lipids, 32
Age and weight, prediction of
  At puberty in beef heifers, 803
Age effects on milk production
  Estimates of, in Hereford cows, 1
Alfalfa meal and fish meal, value of
  Sequence of protein feeding and, for pregnant gilts and sows, 325
Amino acid availability of isolated rumen microbes
  As affected by protein supplement, 200
Amino acid response curves, plasma
  In lactating sows, 785
Amino acid supplement, an
  Animal fat in low-roughage diets for ruminants: The effects of nitrogen source and, 133
Amino acids, limiting
  Of triticale for the growing rat and pig, 941
Amino acids, plasma
  Effect of intraperitoneal amino acids on nitrogen balance and, in calves, 124
Amino acids, plasma free
  Influence of feeding and fasting on, in the equine, 790
Ammonia and cryogenic systems
  Rapid chilling of beef carcasses utilizing,: Effects of shrink and tenderness, 928
Ammonium salts and urea
  Comparison of, in rations for lactating dairy cows, 1304
Anestrus
  Serum LH in ewes treated with synthetic luteinizing hormone-releasing hormone/follicle stimulating hormone-releasing hormone (LH-RH/FSH-RH) at three periods of, 369
Angus classification scores
  Heritabilities of, 6
Animal fat
  In low-roughage diets for ruminants: The effects of nitrogen source and an amino acid supplement, 133
Anthelmintic treatment, effect of
  On feedlot performance of growing and finishing heifers, 984
Award, distinguished service
  Southern Section A.S.A.S., 1348
Award, teacher fellow
  To give visibility to the competent teacher, 1309

B

Barley variety, effect of
  On protein quality and nutritional value for rats, 71
Beef, II. Effect of marketing, fasting and exercise in
  Preslaughter treatment affecting intramuscular and plasma lipids, 32
Beef carcass chemical composition
  Methods of estimating, 1190
Beef carcass composition and quality
  Prediction of, by live-animal traits, 264
Beef carcass maturity indicators
  And palatability attributes, 507
Beef tenderness
  An evaluation of the tenderometer for measuring, 287
Behavior, individual preweaning suckling
  Of single, twin and triplet lambs, 1313
Bermudagrass, coastcross-1, coastal
  And Pensacola bahiagrass as summer pasture for steers, 490
Biuret *versus* urea and cottonseed meal
  For wintering and finishing steers, 975
Blockage, influence of adrenergic
  Upon some endocrine and metabolic parameters in a stress-susceptible and a fat strain of swine, 591
Blood enzymes
  In relation to porcine muscle properties, 279
Blood supply
  To the bovine ovary, 106
Body-composition
  Of white-tailed deer, 871
Bone proportionality, the effect of
  Carcass specific gravity and carcass composition in cattle and, on this relationship, 47
Breeding, early postpartum
  Effects of, in dairy cattle, 339
Breeding season and ovulation, I.
  Effects of origin and environment on reproductive phenomena in Rambouillet ewes, 1210
Bromide, methyl
  Residual bromide in tissues of rats fed, fumigated diets, 572
Bull calves, compensatory growth of intensively raised
  II. The effect of feed energy concentration, 654
Bulls, beef
  Evaluating relationships among immature measures of size, shape and performance of. IV. Regression models for predicting postweaning performance of young Hereford and Angus bulls using preweaning measures of size and shape, 12
Bulls, Charolais
  Puberal characteristics and early growth of, on high nutrient allowance, 831
Bulls, testicular function in
  10 weeks after unilateral vasectomy, 117
Bulls, young Hereford and Angus
  IV. Regression models for predicting postweaning performance of, using preweaning measures of size and shape. Evaluating relationships among immature measures of size, shape and performance of beef bulls.

Bulls, Charolais
  Puberal characteristics and early growth of, on high nutrient allowance, 831
Bulls, testicular function in
  10 weeks after unilateral vasectomy, 117
Bulls, young Hereford and Angus
  IV. Regression models for predicting postweaning performance of, using preweaning measures of size and shape. Evaluating relationships among immature measures of size, shape and performance of beef bulls.

C

Calcium requirement
Of the cesarean derived colostrum-free pig from 3 through 9 weeks of age, 722
Calf performance, prediction of feeder
And subsequent carcass characteristics, 256
Calves
Effect of intraperitoneal amino acids on nitrogen balance and plasma amino acids in, 124
Iodine toxicity, Physiological effects of elevated dietary iodine in, 449
Calves and pigs
Digestion of wheat bran by, 1272
Calves, beef
Winter supplementation of, on sandhill range, 442
Calves, growing
Dehydrated corn plant pellets for, 850
Calves, Hereford
Impact of pinkeye (infectious bovine keratoconjunctivitis) on weaning and postweaning performance of, 1179
Calves, young
Manganese metabolism with oral and intravenous ^{54}Mn in, as influenced by supplemental manganese, 1284
Carbohydrate and nitrogen fractions, *in vitro* utilization of the
Artificially altered corn grain harvested at three moisture levels, 430
Carbohydrate fractions, changes in the
Artificially altered corn grain harvested at moisture levels. I. Dry matter and nitrogen losses and, 417
Carcass characteristics
Prediction of feeder calf performance and subsequent, 256
Carcass composition
Histological relationships of muscle biopsies to bovine meat quality and, 24
Carcasses, beef
Rapid chilling of, utilizing ammonia and cryogenic systems: Effects of shrink and tenderness, 928
Cardiovascular parameters in mink
Cardiac output, blood pressure, blood volume, and other, 121
Cattle
Controlled parturition in, 485
Effects of level of urea and of urea plus limestone on N metabolism of corn silage-based rations by, 687
Effect of radiation on metabolism of selected minerals in, 178
Fetal development of the double muscled condition in, 752
Cattle, beef
Factors affecting pelvic size and dystocia in, 496
Lipotropic factors for, fed high-concentrate diets, 627
Mineral composition of tissues from, under grazing conditions in Panama, 158
Plasma growth hormone levels and thyroid secretion rates during compensatory growth in, 437
Use of estrogen with dexamethasone for inducing parturition in, 584
Cattle, carcass specific gravity and carcass composition in
And the effect of bone proportionality on this relationship, 47
Cattle, dairy
Effects of eary postpartum breeding in, 339
Cattle, double muscling in beef
Red to white fiber ratios as an index of, 1165
Cattle, fertility of
Following $PGF_{2}a$ injection, 964
Cattle, Hereford, Angus and Shorthorn
Effects of heterosis on maternal performance and milk production in, 728
Cattle, range
Serum alkaline phosphatase in unsupplemented, 1185
Cattle, reproduction in Hereford, Angus and Shorthorn
Effects of heterosis on, 711
Cell fusion
And terminal differentiation of myogenic cells in culture, 1103
Changes, cellular and enzymatic
With animal growth in porcine intramuscular adipose tissue, 532
Chemical composition, beef carcass
Methods of estimating, 1190
Cellularity
And lipogenic enzyme activities of porcine intramuscular adipose tissue, 538
Citrus pulp
The energy value for and influence of, in finishing diets for swine, 545
Classification scores, Angus
Heritabilities of, 6
Coastal bermudagrass, dehydrated
Influence of level of, or rice straw on digestibility, 844
Collection periods in digestion trials
Comparison of various length, with steers fed various levels of roughage, 838
Copper
Maternal-fetal utilization of, by sheep, 475
Corn, gelatinized
The effect of feeding unsaturated fats as influenced by, and by the presence or absence of rumen protozoa. I. Serum lipid composition. II. Carcass lipid composition
Corn grain, artificially altered
Harvested at three moisture levels. I. Dry matter and nitrogen losses and changes in the carbohydrate fractions, 417 II. Changes in the nitrogen fractions, 424 III. *In vitro* utilization of the carbohydrate and nitrogen fractions, 430
Corn plant pellets, dehydrated
For growing calves, 850
Corn preservation treatments, effect of
On *in vitro* digestibility, ruminal pH and volatile fatty acid formation, 676
Corn silage-based rations
Effects of level of urea and of urea plus limestone on N metabolism of, by cattle, 687
Cow herd management systems
A comparison of drylot and conventional, 249
Cows
Intrauterine administration of prostaglandin $F_{2}a$ in,: Progesterone, estrogen, LH, estrus and ovulation, 347
Cows and calves, performance and efficiency of
Related to winter feeding and management procedures and feeding levels, 237
Cows, beef
Levels of hormones in the serum of cycling, 577
Cows, Hereford
Estimates of age effects on milk production in, 1
Cows, lactating dairy
Comparison of ammonium salts and urea in rations for, 1304

Cows, lactating Holstein
^{65}Zn tissue distribution in, fed normal and low-zinc practical diets, 854
Components, husbandry
In prenatal and perinatal development in swine, 1045
Cottonseed meal, biuret *versus* urea and
For wintering and finishing steers, 975

D

Deer, white-tailed
Body composition of, 871
Nitrogen metabolism of, 186
Dexamethasone, use of estrogen with
For inducing parturition in beef cattle, 584
Dietary calcium, effect of
And phosphorus level upon calcium, phosphorus and nitrogen balance in swine, 758
Diethylstilbestrol, dietary
Rumen microbial numbers in lambs as affected by levels of feed intake and, 991
Diets, corn-soybean meal
Gain, feed efficiency and carcass characteristics of swine fed supplemental lysine and methionine in, during the growth and finishing periods, 1261
Diets, normal and low-zinc practical
^{65}Zn tissue distribution in lactating Holstein cows fed, 854
Diets, swine and rat
Sunflower meal as a replacement for soybean meal in growing, 947
Digestibility
Effect of roughage concentrate ratio on, and rumen fermentation of corn silage-citrus pulp rations, 697
Influence of level of dehydrated Coastal bermudagrass or rice straw on, 844
Digestibility, *in vitro*
Effect of corn preservation on treatments on, ruminal pH and volatile fatty acid formation, 676
Digestion trials
Comparison of various length collection periods in, with steers fed various levels of roughage, 838
Diurnal rhythm in serum testosterone levels
And thymidine uptake by testes in the domestic fowl, 1245
Double muscled condition in cattle, the
Fetal development of, 752
Dystocia in beef cattle
Factors affecting pelvic size and, 496

E

Electrophoresis of sperm
Sex ratios of calves from inseminations after, 603
Embryo development, 1003
Embryonic and fetal development:
Uterine components and influences, 1013
Energy intake prior to parturition, effect of
On milk lipids and survival rate, thermostability and carcass composition of piglets, 64
Energy, metabolizable
Efficiency of utilization of, during pregnancy and the energy requirements for pregnancy in sheep, 383
Energy requirements of non-lactating and lactating Hereford cows, comparison of
And estimates of energetic efficiency of milk production, 681
Energy, supplementation, limited
Intake, digestibility and nitrogen utilization of steers consuming irrigated pasture as influenced by, 1291
Enzyme activities, lipogenic
Cellularity and, of porcine intramuscular adipose tissue, 538
Equine, plasma free amino acids in the
Influence of feeding and fasting on, 790
Errata, 239, 710, 1178
Esophageal fistulae
Effect of mastication, salivary contamination and leaching on the chemical composition of forage samples collected via, 1278
17β-estradiol
Serum FSH in anestrous ewes treated with, 374
Estradiol, the effects of exogenous
Spontaneous patterns of LH release in castrate male sheep and, 1239
Estrogen with dexamethasone, use of
For inducing parturition in beef cattle, 584
Estrous cycle, the
Uterine motility of the ewe during, 86
Estrous cycle length in the ewe
Interaction of stage of the breeding season and intrauterine devices on, 363
Ewe
Response of the, to synthetic gonadotropin releasing hormone, 605
Ewe, estrous cycle length in the
Interaction of stage of the breeding season and intrauterine devices on 363
Ewe, the cycling
Telemetry of uterine motility in, 89
Ewe, uterine motility of the
During the estrous cycle, 86
Ewes and lambs
Iodine nutrition and thyroid function of, on orchardgrass under different levels of nitrogen and micro-element fertilization, 968
Ewes, anestrous
Luteinizing hormone release and ovulation in, 1197
Serum FSH in, treated with 17β-estradiol, 374
Ewes, ovariectomized
Dynamic changes in plasma prolactin, luteinizing hormone and growth hormone in, 795
Ewes, progestin-treated
Pattern of luteinizing hormone release in, 1204
Ewes, Rambouillet
Effects of origin and environment on reproductive phenomena in,. I Breeding season and ovulation, 1210,. II. Lamb production, 1218
Ewes, serum LH in
Treated with synthetic luteinizing hormone-releasing hormone/follicle stimulating hormone-releasing hormone (LH-RF/FSH-RH) at three periods of anestrus, 369

F

Fat, source and level of dietary
On fatty acid and cholesterol in lambs, 669
Fat utilization
By rabbits, 76
Fats, the effect of feeding unsaturated
As influenced by gelatinized corn and by the presence or absence of rumen protozoa. I. Serum lipid composition, II. Carcass lipid composition, 640

Fatty acid formation, volatile
Effect of corn preservation treatments on *in vitro* digestibility, ruminal pH and, 676
Feed energy concentration, II. The effect of
Compensatory growth of intensively raised bull calves, 654
Feed intake, *ad libitum* and restricted
Estrus, ovulation rate and body composition of selected strains of mice on 271
Feed intake, levels of
Rumen microbial numbers in lambs as affected by, and dietary diethylstilbestrol, 991
Feedlot performance of cattle
Reconstituted wheat. I. Influence on, 456
Feedlot performance of growing and finishing heifers
Effect of anthelmintic treatment on, 984
Ferrous carbonates
As source of iron for weanling pigs and rats, 52
Fertilization, micro-element
Iodine nutrition and thyroid function of ewes and lambs on orchardgrass under different levels of nitrogen and, 968
Fetal development
Of the double muscled condition in cattle, 752
Fiber ratios, red to white
As an index of double muscling in beef cattle, 1165
Floride intake of cattle
Grazing fluoride-contaminated forage, as determined by esophageal-fistulated steers, 1298
Follicular fluid, porcine
Porcine spermatozoan respiration in the presence of, 1235
Forage, fluoride-contaminated
Fluoride intake of cattle grazing, as determined by esophageal-fistulated steers, 1298
Forage, grazed
A comparison of indirect methods of predicting *in vivo* digestibility of, 192
Forage, intake of some
Relationship between, and feeding behavior of sheep, 172
Forage samples, the chemical composition of
Effect of mastication, salivary contaminating and leaching on, collected via esophageal fistulae, 1278
Formaldehyde
In vitro evaluations of protein and protein-safflower oil treated with, complexes, 467
Formaldehyde treatment of soybean meal, effect of
On the performance of growing steers and lambs, 646
Formaldehyde treatment of sunflower and soybean meal, effects of
On nitrogen balance in lambs, 702
Fowl, domestic
Diurnal rhythm in serum testosterone levels and thymidine uptake by testes in the, 1245
FSH and LH, release of
In beef heifers by synthetic gonadotrophin releasing hormone, 357
Fusarium roseum, Ohio isolates B and C
Reproductive performance of female swine fed corn naturally molded or inoculated with, 598

G

Gamma irradiation, effects of whole-body
On various chemical properties of muscle, 20
Gastrointestinal tract tissues
A simple method of preparation of, for scanning electron microscopy, 354
Gestation, effect of stage of
And uterine space on prenatal survival in the pig, 960
Gilts and sows, pregnant
Sequence of protein feeding and value of alfalfa meal and fish meal for, 325
Gilts fed low or high energy diets during gestation
Blood and tissue traits in pigs at birth and at 3 weeks from, 766
Gilts, puberal
Effect of testosterone on reproductive characteristics of, 81
Globulin, porcine corticosteroid-binding
Binding properties and levels in stress-susceptible swine, 1224
Glucose, developmental aspects of
And VFA metabolism in the germfree and conventional ruminant, 893
Gonadotrophin releasing hormone, synthetic
Release of FSH and LH in beef heifers by, 357
Gonadotrophin releasing hormone, synthetic
Response of the ewe to, 605
Grasses, four tropical
Comparison and digestibility of, grown in Nigeria, 149

H

Ham properties, dry-cured
Fresh ham storage as related to, 520
Ham storage, fresh
As related to dry-cured ham properties, 520
Microflora of fresh and dry-cured hams as affected by, 525
Hams, microflora of fresh and dry-cured
As affected by fresh ham storage, 525
Hay, increased utilization of blue stem
With the addition of water or certain protein sources, 662
Heat stress
Intake and utilization of nutrients in sheep fed different levels of roughage under, 877
Physiological responses of stress susceptible and stress resistant pigs to, 954
Heifers, Angus
Plasma corticoids of, in programmed circadian temperatures of 17 to 21 C and 21 to 34 C, 819
Heifers, beef
Prediction of age and weight at puberty in, 803
Release of FSH and LH in, by synthetic gonadotrophin releasing hormone, 357
Heifers, feedlot performance of growing and finishing
Effect of anthelmintic treatment in, 984
Hereford cows, non-lactating and lactating
Comparison of energy requirements of, and estimates of energetic efficiency of milk production, 681
Hereford populations, weaning weight in
Maternal sib correlations for, under diverse environments, 923
Heterosis, effect of
On maternal performance and milk production in Hereford, Angus and Shorthorn cattle, 728
Heterosis, effects of
On reproduction in Hereford, Angus and Shorthorn cattle, 711
Holotrich protozoa in sheep
Rumen fluid osmolality: Evaluation of its influence upon the occurrence and numbers of, 871
Hormone release, luteinizing
And ovulation in anestrous ewes, 1197

Hormone, synthetic gonadotropin releasing
Response of the ewe to, 605
Hormone, levels of
In the serum of cycling beef cows, 577
Hydrolysis of sorghum grain starch
By rumen microorganisms and purified porcine α-amylase as observed by scanning microscopy, 900

I

Index of double muscling in beef cattle, an
Red to white fiber ratios as, 1165
Ingesta, microbial and chemical characteristics of intestinal
Ponies *vs.* steers:, 559
Innervation, the role of
In muscle development and function, 1092
Inseminations after electrophoresis of sperm
Sex ratios of calves from, 603
Interrelationships, hormonal and nutritional
And their effects on skeletal muscle, 1142
Intraperitoneal amino acids, effect of
On nitrogen balance and plasma amino acids in calves, 124
Intrauterine devices
Interaction of stage of the breeding season and, on estrous cycle length in the ewe, 363
In vitro digestibility
Reconstituted wheat, II. Influence of physical form on, 463
Iodine, effects of elevated dietary
Iodine toxicity. Physiological, on calves, 449
Iodine nutrition and thyroid function of ewes and lambs
On orchardgrass under different levels of nitrogen and micro-element fertilization, 968
Iodine toxicity
Physiological effects of elevated dietary iodine on calves, 449
Iron metabolism, kinetics in
In piglets, 1249
Iron, sources of
Ferrous carbonates as, for weanling pigs and rats, 52

K

Kerato-conjunctivitis, infectious bovine
Impact of pinkeye, on weaning and postweaning performance of Hereford calves, 1179

L

Lactation duration, effect of
On reproductive performance of sows, 100
Lamb production, II.
Effects of origin and environment on reproductive phenomena in Rambouillet ewes, 1218
Lambs, fatty acid and cholesterol in
Source and level of dietary fat on, 669
Lambs, nitrogen and energy balance of
Adaptational responses in, fed a methane inhibitor, 154
Lambs, nitrogen balance in
Effects of formaldehyde treatment of sunflower and soybean meal on, 702
Lambs, rumen microbial numbers in
As affected by level of feed intake and dietary diethylstilbestrol, 991
Lambs, single, twin and triplet
Individual preweaning suckling behavior of, 1313
LH release, spontaneous patterns of
In castrate male sheep and the effects of exogenous estradiol, 1239
Lindane-treated swine
Tissue residues, blood chemistry and physiological response of, 318
Lipids, dietary
Microbial populations and metabolic parameters of ruminants fed a purified diet with and without, 915
Lipids, intramuscular and plasma
Preslaughter treatment affecting,. I. Effect of ACTH in rabbits, 32. II. Effect of marketing, fasting and exercise in beef, 38
Lipotropic factors for beef cattle
Fed high-concentrate diets, 627
Live-animal traits
Prediction of beef carcass composition and quality by, 264
Luteinizing hormone release, pattern of
In progestin-treated ewes, 1197
Lysine and methionine corn-soybean meal diets, supplemental
Gain, feed efficiency and carcass characteristics of swine fed, during the growing and finishing periods, 1261

M

Mammary gland during pregnancy
Growth, development and composition of the ovine conceptus and, 613
Management procedures
Performance and efficiency of cows and calves related to winter feeding and, feeding levels, 237
Management systems
A comparison of drylot and conventional cow herd, 249
Manganese metabolism
With oral and intravenous ^{54} Mn in young calves as influenced by supplemental manganese, 1284
Manganese, supplemental
Manganese metabolism with oral and intravenous ^{54} Mn in young calves as influenced by, 1284
Mare's milk
Iron, zinc and copper in, 1276
Mares, pregnancy in
Ovarian changes during the estrous cycle and, 330
Mare, thyroxine turnover in the
Effects of season, pregnancy and lactation on, 811
Maturity indicators, beef carcass
And palatability attributes, 507
Meat quality
Phenotypic expression of muscle fiber types and some implications to, 1158
Meat quality, bovine
Histological relationships of muscle biopsies to, and carcass composition, 24
Metabolism of ponies
Urea recycling and, 565
Metabolism, VFA
Developmental aspects of glucose and, in the germfree and conventional ruminant, 893
Metabolizable energy of triticale
A comparison of *in vivo* and *in vitro*, for the chick, rat and pig, 1257
Methane inhibitor, a
Adaptational responses in nitrogen and energy balance of lambs fed, 154

Methane inhibitor, effects of a ruminal
On growth and energy metabolism in the ovine, 908
Methods for improving the *in vitro* digestibility of rice hulls
An evaluation of, 140
Methods of predicting *in vivo* digestibility
A comparison of indirect, or grazed forage, 192
Mice, selected strains of
Estrus, ovulation rate and body composition of, on *ad libitum* and restricted feed intake, 271
Microflora of fresh and dry-cured hams
As affected by fresh ham storage, 525
Microscopy, scanning electron
A simple method of preparation of gastrointestinal tract tissues for, 354
Hydrolysis of sorghum grain starch by rumen microorganisms and purified porcine α-amylase as observed by, 900
Milk, mare's
Iron, zinc and copper in, 1276
Mild production
Estimates of age effects on, in Hereford cows, 1
Mild production, energetic efficiency of
Comparison of energy requirements of non-lactating and lactating Hereford cows and estimates of, 681
Mink, cardiovascular parameters in
Cardiac output, blood pressure, blood volume and other, 121
^{54}Mn, oral and intravenous
Manganese metabolism with, in young calves as influenced by supplemental manganese, 1284
Mortality, prenatal and perinatal
Potential mechanisms responsible for, or low viability of swine, 1037
Muscle biopsies, histological relationships of
To bovine meat quality and carcass composition, 24
Muscle development and function
The role of innervation in, 1092
Muscle differentiation, skeletal
Ultrastructural features of, and development, 1111
Muscle fiber types
Phenotypic expression of, and some implications to meat quality, 1158
Muscle G-6-P and serum CPK
As related to pork quality, 295
Muscle growth, skeletal
Regulation of protein synthesis and, 1054
Muscle properties, porcine
Blood enzymes in relation to, 279
Muscle, protein synthesis in
Basic aspects of, 1050
Muscle proteins, various
Turnover rates of, 1150
Muscle, skeletal
Hormonal and nutritional interrelationships and their effects on, 1142
Muscle, various chemical properties of
Effects of whole-body gamma irradiation on, 20
Myogenic cells in culture
Cell fusion and terminal differentiation of, 1103

N

N metabolism
Effects of level or urea and of urea plus limestone on, of corn silage-based rations by cattle, 687
News and Notes, 238, 481, 709, 922, 1177, 1351
Nigeria, four tropical grasses grown in
Comparison and digestibility of, 149
Nitrogen
Plasma and rumen fluid components of steers fed two sources and levels of, 404
Nitrogen balance
Effect of intraperitoneal amino acids on, and plasma amino acids in calves, 124
Nitrogen balance in lambs
Effects of formaldehyde treatment of sunflower and soybean meal on, 702
Nitrogen, different levels of
Iodine nutrition and thyroid function of ewes and lambs on orchardgrass under, and micro-element fertilization, 968
Nitrogen, effects of
And micro-element fertilization on quality of pasture and on the health, nutritional status and reproductive performance of sheep, 163
Nitrogen fractions, changes in the
Artificially altered corn grain harvested at three moisture levels. II., 424
Nitrogen metabolism
Energy and, and performance responses of lactating sows fed thyroprotein, 310
Nitrogen metabolism
Of white-tailed deer, 186
Nitrogen retention, maximum
Total sulfur-containing amino acids, isoleucine and tryptophan requirements of the finishing pig for, 59
Nitrogen source, the effects of
Animal fat in low-roughage diets for ruminants:, and an amino acid supplement, 133
Nonruminant
Nutritive value of triticale for the, 935
Nutrient allowance, high
Puberal characteristics and early growth of Charolais bulls in, 831
Nutrients, intake and utilization of
In sheep fed different levels of roughage under heat stress, 877

O

Orchardgrass
Iodine nutrition and thyroid function of ewes and lambs on, under different levels of nitrogen and micro-element fertilization, 968
Origin and environment, effects of
On reproductive phenomena in Rambouillet ewes. I. Breeding season and ovulation, 1210
Ovarian changes during the estrous cycle
And pregnancy in mares, 330
Ovary, the bovine
Blood supply to, 106
Ovine
Effects of a ruminal methane inhibitor on growth and energy metabolism in the, 908
Ovine conceptus and mammary gland, the
Growth, development and composition of the, during pregnancy, 613
Ovulation, breeding season and
Effects of origin and environment on reproductive phenomena in Rambouillet ewes, I., 1210
Ovulation in anestrous ewes
Luteinizing hormone release and, 1197

P

Palatability attributes
Beef carcass maturity indicators and, 507

Panama, grazing conditions in
Mineral composition of tissues from beef cattle under, 158
Parturition in beef cattle
Use of estrogen with dexamethasone for inducing, 584
Parturition, controlled
In cattle, 485
Parturition in swine, induction of
With prostaglandin $F_{2\alpha}$, 1229
Pasture, irrigated
Intake, digestibility and nitrogen utilization of steers consuming, as influenced by limited energy supplementation, 1291
Pasture, quality of
Effects of nitrogen and micro-element fertilization on, and on the health, nutritional status and reproductive performance of sheep, 163
Pasture, summer
Coastcross-1 bermudagrass, Coastal bermudagrass and Pensacola bahiagrass as, for steers, 490
Patterns, metabolic
In the neonatal swine, 1022
Peanut hulls
Treating, to improve digestibility for ruminants, 860
Pelvic size, factors affecting
And dystocia in beef cattle, 496
$PGF_{2}a$ injection
Fertility of cattle following, 964
Phosphorus level, effect off dietary calcium and
Upon calcium, phosphorus and nitrogen balance in swine, 758
Physiological responses to heat stress
Of stress susceptible and stress resistant pigs, 954
Pig, prenatal survival in the
Effect of stage of gestation and uterine space on, 960
Pig, the cesarean derived colostrum-free
Calcium requirement of, from 3 to 9 weeks of age, 772
Pig, the fetal and neonatal
In biomedical research, 997
Pig, the finishing
Total sulfur-containing amino acids, isoleucine and tryptophan requirements of, for maximum nitrogen retention, 59
Pig, the growing rat and
Limiting amino acids of triticale for, 941
Pig, the neonatal
Immunologic development of, 1018
Piglet, responses of the
To perinatal stressors, 1031
Piglets
Effect of energy intake prior to parturition on milk lipids and survival rate thermostability and carcass composition of, 64
Kinetics in iron metabolism in, 1249
Piglets, newborn
Identification and characterization of soluble blood serum proteins in, 95
Pigs, a herd of southeastern-grown experimental
Evaluation of the character and incidence of PSE in, 746
Pigs and rats, weanling
Ferrous carbonates as sources of iron for, 52
Pigs, flood and tissue traits in
At birth and at 3 weeks from gilts fed low or high energy diets during gestation, 766
Pigs, early weaned
Effects of low lactose whey, skim milk and sugar on diet palatability and performance of, 1267
Pigs, stress susceptible and stress resistant
Physiological responses of, to heat stress, 954
Pine sawdust, utilization of
As a roughage substitute in beef finishing rations, 693
Pinkeye (Infectious bovine kerato-conjunctivitis), impact of
On weaning and postweaning performance of Hereford calves, 1179
Placement 237, 480, 708, 921, 1176, 1349
Plasma and rumen fluid components
Of steers fed two sources and levels of nitrogen, 404
Plasma corticoids of Angus heifers
In programmed circadian temperatures of 17 to 21 C and 21 to 34 C, 819
Plasma growth hormone levels
And thyroid secretion rates during compensatory growth in beef cattle, 437
Plasma prolactin, luteinizing hormone and growth hormone, dynamic changes in
In ovariectomized ewes, 795
Ponies
Urea recylcing and metabolism of, 565
Ponies *vs.* steers:
Microbial and chemical characteristics of intestinal ingesta, 559
Pony mares, the ovaries of
Effects of pregnancy and hysterectomy on, 823
Porcine muscle properties
Blood enzymes in relation to, 279
Porcine spermatozoan respiration
In the presence of porcine follicular fluid, 1235
Pork carcasses
Bactericidal properties of acetic and propionic acids on, 515
Pork quality
Muscle G-6-P and serum CPK as related to, 295
Potassium nitrate utilization by sheep
Some metabolic aspects of urea and/or, 410
Pregnancy and hysterectomy, effects of
On the ovaries of pony mares, 823
Prostaglandin $F_{2}\alpha$,
Induction of parturition in swine with, 1229
Prostaglandin $F_{2}\alpha$, intrauterine administration of
In cows: Progesterone, estrogen, LH, estrus and ovulation, 339
Protein and protein-safflower oil complexes
In vitro evaluations of, treated with formaldehyde, 467
Protein, energy cost of
And fat deposition in sheep, 378
Protein feeding, sequence of
And value of alfalfa meal and fish meal for pregnant gilts and sows, 325
Protein quality
Effect of barley variety on, and nutritional value for rats, 71
Protein sources, certain
Increased utilization of bluestem hay with the addition of water or, 662
Protein supplement
Amino acid availability of isolated rumen microbes as affected by, 200
Protein supplements in high-roughage lamb rations
Soybean meal, urea and extruded starch-urea products compared as, 206
Protein synthesis and muscle growth
Some practical applications of, 1071
Protein synthesis and skeletal muscle growth
Regulation of, 1054
Protein synthesis in animal models, 1079
Protein synthesis in muscle

Basic aspects of, 1050
Protein, soluble blood serum
Identification and characterization of, in newborn piglets, 95
Proteins, various muscle
Turnover rates of, 1150
PSE, incidence of
Evaluation of the character and, in a herd of southeastern-grown experimental pigs, 746

R

Rabbits
Fat utilization by, 76
Rabbits, I. Effect of ACTH in
Preslaughter treatment affecting intramuscular and plasma lipids, 32
Radiation on metabolism, effect of
Of selected minerals in cattle, 178
Rams, the testicular artery in
Local increase in testosterone concentration in, 835
Rat and pig, the growing
Limiting amino acids of triticale for, 941
Rations, beef finishing
Utilization of pine sawdust as a roughage substitute in, 693
Rations, corn silage-citrus pulp
Effect of roughage concentrate ratio on digestibility and rumen fermentation of, 697
Rations, lamb
Soybean meal, urea and extruded starch-urea products compared as protein supplements in high roughage, 206
Rations, ruminant
Nutritive value of acid hydrolyzed wood residue in, 394
Rats
Effect of barley variety on protein quality and nutritional value for, 71
Rats, tissues of
Residual bromide in, fed methyl bromide fumigated diets, 572
Regression models, IV.
For predicting postweaning performance of young Hereford and Angus bulls using preweaning measures of size and shape. Evaluating relationships among immature measures of size, shape and performance of beef bulls, 12
mance of beef bulls, 12
Research, biomedical
The fetal and neonatal pig in, 997
Rice hulls, the *in vitro* digestibility of
An evaluation of methods for improving, 140
Rice straw
Influence of level of dehydrated Coastal bermudagrass or, on digestibility, 844
Roughage concentrate ratio, effect of
On digestibility and rumen fermentation of corn silage-citrus pulp rations, 697
Roughage substitute, a
Utilization of pine sawdust as, in beef finishing rations, 693
Rumen fermentation
Effect of roughage concentrate ratio on digestibility and, of corn silage-citrus pulp rations, 697
Rumen fluid osmolality:
Evaluation of its influence upon the occurrence and numbers of Holotrich protozoa in sheep, 871
Rumen microbes, isolated
Amino acid availability of, as affected by protein supplement, 200
Rumen microbial numbers in lambs
As affected by level of feed intake and dietary diethylstilbestrol, 991
Rumen protozoa, the presence or absence of
The effect of feeding unsaturated fats as influenced by gelatinized corn and by, I. Serum lipid composition, 634 II. Carcass lipid composition, 640
Ruminal pH
Effect of corn preservation treatments on *in vitro* digestibility, and volatile fatty acid formation, 676
Ruminant, germfree and conventional
Developmental aspects of glucose and VFA metabolism in the, 893
Ruminants
Treating peanut hulls to improve digestibility for, 860
Ruminants, animal fat in low-roughage diets for:
The effects of nitrogen source and an amino acid supplement, 133
Ruminants, microbial populations and metabolic parameters of
Fed a purified diet with and without dietary lipids, 915

S

Safflower oil, abomasally administered
Influence of, on fat composition and organoleptic evaluation of bovine tissue, 887
Serum alkaline phosphatase
In unsupplemented range cattle, 1185
Serum FSH in anestrous ewes
Treated with 17β-estradiol, 374
Serum LH in ewes
Treated with synthetic luteinizing hormone-releasing hormone/follicle stimulating hormone-releasing hormone (LH-RH/FSH-RH) at three periods of anestrus, 369
Sex ratios of calves
From inseminations after electrophoresis of sperm, 603
Sheep
Effects of nitrogen and micro-element fertilization on quality of pasture and on the health, nutritional status and reproductive performance of, 163
Sheep
Maternal-fetal utilization of copper by, 475
Sheep, castrate male
Spontaneous patterns of LH release in, and the effects of exogenous estradiol, 1239
Sheep, energy requirements for pregnancy in
Efficiency of utilization of metabolizable energy during pregnancy and the, 383
Sheep, fat deposition in
Energy cost of protein and, 378
Sheep fed different levels of roughage
Intake and utilization of nutrients in, under heat stress, 877
Sheep, feeding behavior of
Relationship between intake of some forage and, 172
Sheep, holotrich protozoa in
Rumen fluid osmolality: Evaluation of its influence upon the occurrence and numbers of, 871
Sheep, potassium nitrate utilization by
Some metabolic aspects of urea and/or, 410
Shrink and tenderness, effects on
Rapid chilling of beef carcasses utilizing ammonia and cryogenic systems:, 928
Sib correlations, maternal

For weaning weight in Hereford populations under diverse environments, 923
Sorghum grain starch, hydrolysis of
By rumen microorganisms and purified porcine α-amylase as observed by scanning electron microscopy, 900
Sow, the lactating
Tryptophan requirement of, 778
Sows, lactating
Energy and nitrogen metabolism and performance responses of, fed thyroprotein, 310
Plasma amino acid response curves in, 785
Sows, reproductive performance of
Effect of lactation duration in, 100
Soybean meal
Sunflower meal as a replacement for, in growing swine and rat diets, 947
Soybean meal, effect of formaldehyde treatment of
On the performance of growing steers and lambs, 646
Soybean meal, urea and extruded starch-urea products
Compared as protein supplements in high-roughage lamb rations, 206
Soybeans of different trypsin-inhibitor activities
Effects of, on performance of growing swine, 304
Spermatozoa, acrosome morphology of boar
During *in vitro* aging, 113
Steers
Biuret *versus* urea and cottonseed meal for wintering and finishing, 975
Steers
Intake, digestibility and nitrogen utilization of consuming irrigated pasture as influenced by limited energy supplementation, 1291
Steers and lambs, the performance of growing
Effect of formaldehyde treatment of soybean meal in, 646
Steers, esophageal-fistulated
Flouride intake of cattle grazing fluoride-contaminated forage, as determined by, 1298
Steers fed two sources and levels of nitrogen
Plasma and rumen fluid components of, 404
Steers fed various levels of roughage
Comparison of various length collection periods in digestion trials with, 838
Steers, summer pasture for
Coastcross-1, bermudagrass, coastal bermudagrass and Pensacola bahiagrass as, 490
Stressors, perinatal
Responses of the piglet to, 1031
Sulfur-containing amino acids, total
Isoleucine and tryptophan requirements of the finishing pig for maximum nitrogen retention, 59
Sunflower meal
As a replacement for soybean meal in growing swine and rat diets, 947
Swine, a stress-susceptible and a fat strain of
Influence of adrenergic blockage upon some endocrine and metabolic parameters in, 591
Swine, calcium, phosphorus and nitrogen balance in
Effect of dietary calcium and phosphorus level upon, 758
Swine, finishing diets for
The energy value for and influence of citrus pulp in, 545
Swine, gain, feed efficiency and carcass characteristics of
Fed supplemental lysine and methionine in corn-soybean meal diets during the growing and finishing periods, 1261
Swine, induction of parturition in
With prostaglandin $F_2\alpha$, 1229
Swine, lindane-treated
Tissue residues, blood chemistry and physiological response of, 318
Swine, low viability of
Potential mechanisms responsible for prenatal and perinatal mortality or, 1037
Swine, performance of growing
Effects of soybeans of different trypsin-inhibitor activities on, 304
Swine, prenatal and perinatal development in
Husbandry components in, 1045
Swine, reproductive performance of female
Fed corn naturally molded or inoculated with *Fusarium roseum*, Ohio isolates B and C, 598
Swine, stres-susceptible
Porcine corticosteroid-binding globulin: Binding properties and levels in, 1224
Swine, the neonatal
Metabolic patterns in, 1022
Syndrome, porcine malignant hyperthermia
A possible mechanism for induction of, 504

T

Teacher, the competant
Teacher fellow award to give visibility to, 1309
Telemetry of uterine motility
In the cycling ewe, 89
Temperatures, programmed circadian
Plasma corticoids of Angus heifers in, of 17 to 21 C and 21 to 34 C, 819
Tenderometer, an evaluation of the
For measuring beef tenderness, 287
Testicular function in bulls
10 weeks after unilateral vasectomy, 117
Testosterone concentration, local increase in
In the testicular artery in rams, 835
Testosterone, effect of
On reproductive characteristics of puberal gilts, 81
Thymidine uptake by testes in the domestic fowl
Diurnal rhythm in serum testosterone levels and, 1245
Thyroid secretion rates
Plasma growth hormone levels and, during compensatory growth in beef cattle, 437
Thyroprotein
Energy and nitrogen metabolism and performance responses of lactating sows fed, 310
Thyroxine turnover in the mare
Effects of season, pregnancy and lactation on, 811
Tissue, organoleptic evaluation of bovine
Influence of abomasally administered safflower oil on fat composition and, 887
Tissue, porcine intramuscular adipose
Cellular and enzymatic changes with animal growth in, 532
Tissue, porcine intramuscular adipose
Cellularity and lipogenic enzyme activities of, 538
Tissues from beef cattle
Mineral composition of, under grazing conditions in Panama, 158
Triticale for the chick, rat and pig
A comparison of *in vivo* and *in vitro* metabolizable energy of, 1257
Triticale, limiting amino acids of
For the growing rat and pig, 941
Triticale, nutritive value of
For the nonruminant, 935
Tryptophan requirement
Of the lactating sows, 778

U

Ultrastructural features
Of skeletal muscle differentiation and development, 1111
Urea and cotton seed meal, biuret *versus*
For wintering and finishing steers, 975
Urea, effects of level of
And of urea plus limestone on N metabolism of corn silage-based rations by cattle, 687
Urea in rations for lactating dairy cows
Comparison of ammonium salts and, 1304
Urea plus limestone
Effect of level of urea and of, on N metabolism of corn silage-based rations by cattle, 687
Urea recycling
And metabolism of ponies, 565
Urea, some metabolic aspects of
And/or potassium nitrate utilization by sheep, 410
Uterine components and influences
Embryonic and fetal development, 1013
Uterine motility of the ewe
During the estrous cycle, 86
Uterine motility, telemetry of
In the cycling ewe, 89
Uterine space
Effect of stage of gestation and, on prenatal survival in the pig, 960

V

Vasectomy, unilateral
Testicular function in bulls 10 weeks after, 117

W

Weight, weaning
Maternal sib correlations for, in Hereford populations under diverse environments, 923
Wheat bran, digestion of
By calves and pigs, 1272
Wheat, reconstituted
I. Influence of feedlot performance of cattle, 456
II. Influence of f physical form on *in vitro* digestibility, 463
Whey, skim milk and sugar, low lactose
Effects of, on diet palatability and performance of early weaned pigs, 1267
Winter feeding
Performance and efficiency of cows and calves related to, and management procedures and feeding levels, 237
Winter supplementation of beef calves
On sandhill range, 442
Wood residue, acid hydrolyzed
Nutritive value of, in ruminant rations, 394

Z

^{65}Zn tissue distribution
In lactating Holstein cows fed normal and low-zinc practical diets, 854

SUBJECT INDEX FOR VOLUME 39, 1974

A

Abortion, induction of
In mares with prostaglandin $F_2\alpha$, 404
Abstracts
Annual Meeting, A.S.A.S., 135
Midwestern Section, A.S.A.S., 965
Actinomycin D, effect of
On luteal regression induced by intrauterine devices, 83
Additives, effect of various
On nutritive value of ryegrass straw silage. I. Laboratory and *in vitro* dry matter digestion observations, 920
II. Animal metabolism and performance observations, 926
Adipose tissue accumulation and cellularity
In growing and fattening lambs, 1016
Adipose tissue, lipogenesis and cellularity of
From genetically lean and obese swine, 712
Age at mating, effect of
On the prenatal and postnatal performance of the female rat, 846
Alfalfa-brome forage
Influence of degree of fermentation on the utilization of energy from, 780
Alfalfa haylage additives
Comparison between whey and lactose as, 115
Alfalfa meal and wheat bran, value of
In diets for swine during prefarrowing and lactation, 838
Alfalfa solubles, effect of
On urea utilization by beef cattle, 1158
Amino acids in milo, limiting
For the growing pig, 694
Amino acid metabolism, II.
Isolation-perfusion of ovine hind limbs, 898
Angus bulls
Evaluation of epididymal sperm by the cannulation technique and the effects of *in vivo* storage in, 1136
Animal behavior in the modern animal science curriculum
Old wine in a new skin or, 441
Animal metabolism and performance observations, II.
Effect of various additives on nutritive value of ryegrass straw silage, 926
Antisera, non-specific
Development of a specific ovine thyrotropin (TSH) radioimmunoassay from, 768
Arginine
A dispensable amino acid for postpubertal growth and pregnancy of swine, 1123
Award, A.S.A.S. Distinguished Service Award
Western Section, 964

B

Beef carcass composition
Evaluation of a tissue-sawdust technique for predicting, 849
Beef carcass washing
To reduce bacterial contamination, 674
Beef, heifers
Teratogenicity to 35-day fetuses, excretion patterns and placental transfer in, administered 4-tert-buty-2-chlorophenyl methyl methy-phosphoramidate (Ruelene®), 386
Beef production, efficient
Selection criteria for, 659
Beef steers implanted with diethylstilbestrol
Implant absorption, performance and tissue analysis for, and fed an all-concentrate diet, 1193
Belly, chemical components of the
Composition of pork bellies: II. Compositional variation between and within animals and the relationship of various carcass measurements with the, 1037
Biuret, urea or soybean meal, the levels of dietary
Biuretolytic activity of rumen microorganisms as influenced by, 937
Biuretolytic activity of rumen microorganisms
As influenced by the levels of dietary biuret, urea or soybean meal, 937
Blood urea nitrogen, factors affecting
And its use as an index of the nutritional status of sheep, 435
Boars, pituitary gonadtropins in
As affected by dietary protein and age, 601
Boars, young
A comparison of regular ejaculation with sexual rest on semen characteristics and reproductive organ weights in, 575
Bone composition
In cattle, pigs, sheep and poultry, 493
Brown Swiss
Results from crossing beef X beef and beef X,: Carcass quantity and quality traits, 292
Buffaloes, cattle and
Intake, digestibility and metabolic loss of Napier grass by, when fed wilted, chopped and whole, 423
Bull calves, intensively raised
Compensatory growth of, III. Restricted refeeding and breed differences, 788

C

Calcium-phosphorus, effect of
And nasal irritation on turbinate morphology and performance in pigs, 544
Calves, Angus, Hereford and reciprocal cross
Heterosis and breed effects in preweaning traits of, 11
Calves fed via rumen by-pass
Energy and protein utilization in, 108
Calves, growth of
Effects of early weaning on postpartum reproduction of the dam and, born as multiples or singles, 589
Cannulation technique, evaluation of epididymal sperm by the
And the effects of *in vivo* storage in Angus bulls, 1136

Carbohydrate, dry matter, energy and protein digestion, site and extent of
And the rate of passage of grain diets in swine, 57
Carcass characteristics
Live and, of Holstein castrated, short scrotum and intact males, 488
Carcass characteristics in Hereford and Holstein steers
Comparison of tissue enzyme levels and, 865
Carcass characteristics of steers
Effect of levels and sources of protein on performance and, fed all-concentrate rations, 102
Carcass quantity and quality traits
Results from crossing beef X beef and beef X Brown Swiss:, 292
Carcass traits in beef cattle
Effects of endogenous testosterone on production and, 680
Carcass washing, beef
To reduce bacterial contamination, 674
Carnitine acetyltransferase activity, testicular
Development changes in spermatogenesis, and serum testosterone in the ram, 889
Casein-safflower oil complex, formaldehyde treated
Utilization of a, by growing and finishing steers, 124
Catheter, a chronically-implanted
Measurement of plasma calcitonin *in vivo* in the pig using, for infusion and blood sampling, 885
Cattle, Angus, Charolais and Hereford
Effect of heterosis and maternal influence on weaning traits in reciprocal crosses among, 471
Cattle, beef
Effect of alfalfa solubles on urea utilization by, 1158
Effects of endogenous testosterone on production and carcass traits in, 687
Effects of supplemental energy and season of breeding on the reproductive performance of, 281
Cattle, dairy
Variation in forage preference in, 1170
Cattle fed high concentrate rations, beef
Influence of degree of micronization on the site and extent of sorghum starch digestion in, 958
Cattle fed rations based on urea and corn silage
Nutrient digestibility and N-metabolism by, 408
Cattle, growing-finishing beef
Dry, ensiled high-moisture, ensiled reconstituted high-moisture and volatile fatty acid treated high moisture corn for, 931
Cattle, pigs, sheep and poultry
Bone composition in, 493
Cattle, selection in beef
I. Selection applied and generation interval, 449
II. Selection response, 459
Cellulose and hemicellulose digestibility
In the stomach, small intestine and large intestine of swine, 53
Cells, ultrastructure of endometrial stromal
In the ewe during the estrous cycle and early pregnancy, 565
Changes, physiological and endocrinological
In response to terminal heat stress in swine, 79
Choline requirement of pregnant sows and gilts
Under restricted feeding conditions, 1113
Committee Report
Undergraduate Scholarship Medals, 648
Committee Reports, 261
Contamination, bacterial
Beef carcass washing to reduce, 674
Copper, levels of supplementary
Cooperative regional studies with growing swine. Effects of vitamin E and, during the growing-finishing period on gain, feed conversion and tissue copper storage in swine, 512
Corn
Effect of lignin on rate of *in vitro* cell wall and cellulose disappearance in, 1165
Corn gluten feed
Metabolizable energy value of, 335
Corn, high moisture
Dry, ensiled high-moisture, ensiled reconstituted high-moisture and volatile fatty acid treated, for growing-finishing beef cattle, 931
Corn plant, the whole
Changes in nitrogenous compounds of, during ensiling and subsequent effects on dry matter intake by sheep, 629
Corn silage
Urea *versus* soybean meal as supplements for, fed to heifers and dry cows, 1180
Cows, beef
Storage and feeding of large hay packages for, 1011
Cows, early postpartum
Ovulation estrus and endocrine response after GnRH in, 915
Cows, lactating
Evaluation of formaldehyde-treated protein for growing lambs and, 796
Cows, pre- and post-parturient beef
Hormone levels in, 338
Criteria, selection
For efficient beef production, 659

D

Dam, postpartum reproduction of the
Effects of early weaning on, and growth of calves born as multiples or singles, 589
Defleecing of sheep, chemical
Under two divergent diets, 655
Devices, intrauterine
Effect of actinomycin D on luteal regression induced by, 83
Diet, an all-concentrate
Implant absorption, performance and tissue analysis for beef steers implanted with diethylstilbestrol and fed, 1193
Dietary energy in gestation, effect of
On reproductive performance of gilts, 47
Diethylstilbestrol
Implant absorption, performance and tissue analysis for beef steers implanted with, and fed an all-concentrate diet, 1193
Diethylstilbestrol, oral
Metabolic fate of, in steers, 1185
Diets, grain
Site and extent of carbohydrate, dry matter, energy and protein digestion and the rate of passage of, in swine, 57
Diets of rats and swine
Studies on *Gibberella Zeae*-infected corn in, 1092
Diets, pig starter
Evaluation of protein levels and milk products for, 527
Diets, swine and rat
Cooked soybeans in, 1082
Diets, two divergent
Chemical defleecing of sheep under, 655
Digestibility and rate of passage
By steers fed tall fescue, alfalfa and orchardgrass hay in 18 and 32 C ambient temperatures, 93

Digestibility, cellulose and hemicellulose
In the stomach, small intestine and large intestine of swine, 53
Dominance
And mating behavior in ram lambs, 725
Dry matter digestion observations, *in vitro*
Effect of various additives on nutritive value of ryegrass straw silage. I. Laboratory silo and, 920

E

Effects, genetic and maternal
In pre-weaning traits in crosses of high- and low-fat lines of swine, 1
Effects, heterosis and breed
In preweaning traits of Angus, Hereford and reciprocal cross calves, 11
Egg yolk, components in
Which protect bovine spermatozoa during freezing, 1144
Ejaculation, regular
A comparison of, with sexual rest on semen characteristics and reproductive organ weights in young boars, 575
Electron microscopy, scanning
Digestion of sorghum grain endosperm in the rat and pig observed by, 1099
Embryos, number of
Relationship of various measures of performance with ovulation rate and, 30 days after breeding in gilts, 480
Energy effects of supplemental
And season of breeding on the reproductive performance of beef cattle, 281
Energy supplementation, limited
Of yearling steers grazing irrigated pasture and subsequent feedlot performance, 827
Energy value, metabolizable
Of corn gluten feed, 335
Epididymal sperm, evaluation of
By the cannulation technique and the effects of *in vivo* storage in Angus bulls, 1136
Equines, the nutrition of
The current status of knowledge on, 1045
Erratum, 446
Estradiol-17β
Thermal changes of the bovine uterus following administration of, 87
Estradiol, exogenous protesterone and
Dose-response relationships between, and porcine uterine protein secretions, 747
Estradiol, progesterone and
Prepartum and postpartum levels of, in beef heifers fed two levels of energy, 380
Estrous cycle, influence of day of
At treatment on response to estrous cycle regulation by norethandrolone implants and estradiol valerate injections, 903
Estrous cycle, the bovine
Serum levels of follicle-stimulating hormone during, 360
Ewe milk, reconstituted artificial
Formaldehyde as a bacterial growth retardant in, 638
Ewe, the anestrous and ovariectomized
Effect of consecutive injections of synthetic gonadotropin releasing hormone on LH release in, 907
Ewe, ultrastructure of endometrial stromal cells in the
During the estrous cycle and early pregnancy, 565
Ewes, Dorset X Western
Reproductive performance of, when mated to Dorset or Blackface rams, 18
Ewes, estrous and anestrous
Influence of breed on response to exogenous hormones in, 1129
Ewes infused with LH-RH/FSH-RH
Serum and pituitary LH concentrations in, 1150
Ewes, Panama
Effects of month of breeding and feed level on ovulation and lambing rates of, 73

F

Fat, effect on the performance of pigs from birth to market weight of adding
To the lactation diet of their dams, 1073
Fatty acids, the major
Effects of processing on, of separable porcine tissues. I. Influence of roasting fresh pork, 309
II. Influence of curing and cooking, 317
Feeding conditions, restricted
Choline requirement of pregnant sows and gilts under, 1113
Feedlot performance
Limited energy supplementation of yearling steers grazing irrigated pasture and subsequent, 827
Feedlot utilization
Effects of size and degree of, on fixed costs in commercial feedlots, 841
Feedlots, commercial
Effects of size and degree of feedlot utilization on fixed costs in, 841
Fermentation, influence of degree of
On the utilization of energy from alfalfa-brome forage, 780
Fluids, oviduct and uterine
Secretion rates and chemical composition of, in sows, 582
Forage fiber digestion, rates of *in vitro*
As influenced by chemical treatment, 808
Forage preference variation in
In dairy cattle, 1170
Formaldehyde as a bacterial growth retardant
In reconstituted artificial ewe milk, 638
Formaldehyde treated casein-safflower oil complex
Utilization of a, by growing and finishing steers, 124
FSH, porcine
Radioimmunoassay of, 348

G

Generation interval
Selection in beef cattle. I. Selection applied and, 449
Gibberella Zeae-infected corn, studies on
In diets of rats and swine, 1092
Gilt, reproductive parameters in the
Effect of unilateral ovariectomy and hysterectomy on, during early pregnancy, 366
Gilts
Relationship of various measures of performance with ovulation rate and number of embryos 30 days after breeding in, 480
Gilts, age at puberty in
Influence of nutritional regime on, 63
Gilts, growth, nitrogen balance and reproductive performance in
Effect of protein level on, 1067
Gilts, reproductive performance of
Effect of dietary energy in gestation on, 47

GnRH in early postpartum cows
Ovulation, estrus and endocrine response after, 915
Gonadotropin releasing hormone
Relationship between the luteinizing hormone response to, and endogenous steroids, 355
Gonadotropin releasing hormone, synthetic
Effect of consecutive injections of, on LH release in the anestrous and ovariectomized ewe, 907
Gonadotropins, pituitary
In boars as affected by dietary protein and age, 601
Growth, compensatory
Of intensively raised bull calves. III. Restricted refeeding and breed differences, 788

H

Hams, packer-style
Characteristics of, quality graded prior to processing, 871
Hay packages for beef cows, large
Storage and feeding of, 1011
Heat stress in swine, terminal
Physiological and endocrinological changes in response to, 79
Heifers and dry cows
Urea *versus* soybean meal as supplements for corn silage fed to, 1180
Heifers, beef
Prepartum and postpartum levels of progesterone and estradiol in, fed two levels of energy, 380
Herbivore, the nonruminant
Protein quality for, 506
Heterosis and maternal influence, effect of
On weaning traits in reciprocal crosses among Angus, Charolais and Hereford cattle, 471
Holstein castrated, short scrotum and intact males
Live and carcass characteristics of, 488
Hormone levels
In pre- and post-parturient beef cows, 338
Hormones, exogenous
Influence of breed on response to, in estrous and anestrous ewes, 1129
Hormones, reproductive
In blood and urine of ovariectomized sows, 606
Hormone response, the luteinizing
Relationships between, to gonadotropin releasing hormone and endogenous steroids, 355
Hysterectomy, effect of unilateral ovariectomy and
On reproductive parameters in the gilt during early pregnancy, 366

I

Injections, estradiol valerate
Influence of day of estrous cycle at treatment on response to estrous cycle regulation by norethandrolone implants and, 903
Injections of synthetic gonadotropin releasing hormone
Effect of consecutive, on LH release in the anestrous and ovariectomized ewe, 907
Iodine, elevated dietary
Iodine toxicity. Physiological effects of, on pigs, 879
Iodine toxicity
Physiological effects of elevated dietary iodine on pigs, 879
Iron dextran, oral
And iron from steel slats as hematinics for swine, 699
Iron from steel slats
Oral iron dextran and, as hematinics for swine, 699
Irritation, nasal
Effect of dietary calcium-phosphorus and, on turbinate morphology and performance in pigs, 544
Isolation-perfusion of ovine hind limbs
I. Development of procedures, 893
II. Amino acid metabolism, 898
Isometric contractile properties
Of skeletal muscle from stress susceptible and stress resistent pigs, 68

K

Knowledge on the nutrition of equines
The current status of, 1045

L

Lamb carcass composition
Effect of protein and energy levels on, 325
Lambs
Adipose tissue accumulation and cellularity in growing and fattening, 1016
Relationship between extramuscular adipose tissue lipoprotein lipase activity and intramuscular lipid deposition in fattening, 1026
Lambs fed two nitrogen levels
Nitrogen components reaching the omasum and abomasum of, 643
Lambs, growing
Evaluation of formaldehyde-treated protein for, and lactating cows, 796
Lambs, growth of young
Effects of soyflour in milk replacer followed by a liquid protein supplement on the, 97
Lambs, nitrogen utilization by
Effect of processing method of broiler litter on, 942
Lambs, the omasum and abomasum of
Nitrogen components reaching, fed two nitrogen levels, 643
LH concentrations, serum and pituitary
In ewes infused with LH-RH/FSH-RH, 1150
LH, exogenous
Rate of disappearance of, from the blood in mares, 397
Lignin, effect of
On rate of *in vitro* cell wall and cellulose disappearance in corn, 1165
Lipogenesis and cellularity of adipose tissue
From genetically lean and obese swine, 712
Liver, bovine
Transfer of vitamin A from, to milk, 813
Luteal tissue, compensatory growth and function of,
Following unilateral ovariectomy during early pregnancy in pigs, 752

M

Mares
Rate of disappearance of exogenous LH from the blood in, 397
Mares, induction of abortion in
With prostaglandin $F_{2\alpha}$, 404
Mares, progesterone concentration in blood of
During the estrous cycle, pregnancy and after hysterectomy, 759
Maternal energy *vs.* protein restriction, effect of
On growth and development of progeny in swine, 703

Mating behavior in ram lambs
Dominance and, 725
Methionine, DL-homocysteine thiolactone and N-acetyl-DL-methionine
For ruminants, 612
Methods, influence of processing
On digestion of sorghum starch in high concentrate beef cattle rations, 417
Methods of detecting ultimate porcine muscle quality
Early postmortem, 303
Micronization, influence of degree of
On the site and extent of sorghum starch digestion in beef cattle fed high concentrate rations, 958
Milk products for pig starter diets
Evaluation of protein levels and, 527
Milk, reconstituted artificial ewe
Formaldehyde as a bacterial growth retardant in, 638
Milo for ruminants
Influence of organic acids upon feeding value of dry, reconstituted and early-harvested, 286
Milo, limiting amino acids in
For the growing pig, 694
Month of breeding, effects of
And feed level on ovulation and lambing rates of Panama ewes, 73
Muscle, isometric contractile properties of skeletal
From stress susceptible and stress resistant pigs, 68
Muscle quality, porcine
Early postmortem methods of detecting ultimate, 303
Myofibers, intrafusal
Fetal and neonatal development of spindle capsules and, in the porcine *sartorius*, 42

N

Napier grass, intake, digestibility and metabolic loss of
By cattle and buffaloes with fed wilted, chopped and whole, 423
Neonatal nutritional experiences, effects of
On growth and development of the pig, 521
News and Notes 278, 447, 652, 825, 1009, 1249.
Nitrogen components
Reaching the omasum and abomasum of lambs fed two nitrogen levels, 643
Norethandrolone implants
Influence of day of estrous cycle at treatment on response to estrous cycle regulation by, and estradiol valerate injections, 903
Nutrient digestibility and N-metabolism
By cattle fed rations based on urea and corn silage, 408
Nutrition, pregnancy and age, effects of level of
On the composition of the wool-free ingesta-free body and carcass of sheep, 687
Nutritional regime, influence of
On age at puberty in gilts, 63

O

Organic acids, influence of
Upon feeding value of dry, reconstituted and early harvested milo for ruminants, 286
Ovariectomy and hysterectomy, effect of unilateral
On reproductive parameters in the gilt during early pregnancy, 366
Ovariectomy, unilateral
Compensatory growth and function of luteal tissue following, during early pregnancy in pigs, 752
Ovulation and lambing rates of Panama ewes
Effects of month of breeding and feed level on, 73
Ovulation, estrus and endocrine response
After GnRH in early postpartum cows, 915
Ovulation rate
Relationship of various measures of performance with, and number of embryos 30 days after breeding in gilts, 480

P

Packer-style ham, characteristics of
Quality graded prior to processing, 871
Pancreatic lipase secretion
By sheep, 947
Performance, reproductive
Of Dorset X Western ewes when mated to Dorset or Blackface rams, 18
Performance, sow and progeny
Efficacy of supplemental selenium in reproductive diets on, 536
Performance, various measures of
Relationship of, with ovulation rate and number of embryos 30 days after breeding in gilts, 480
Phosphorus supplements for sows, efficacy of different
During gestation and lactation, 1117
Physiological processes, internal regulation of
Through local venoarterial pathways: A review, 550
Pig
Effects of neonatal nutritional experiences on growth and development of the, 521
Measurement of plasma calcitonin *in vivo* using a chronically-implanted catheter for infusion and blood sampling, 885
Pig, the growing
Limiting amino acids in milo for, 694
Pigs
Iodine toxicity. Physiological effects of elevated dietary iodine on, 879
Pigs, early pregnancy in
Compensatory growth and function of luteal tissue following unilateral ovariectomy during, 752
Pigs, effects of mixing
During the growing-finishing period, 834
Pigs, effect on the performance of
From birth to market weight of adding fat to the lactation diet of their dams, 1073
Pigs, growing
Distribution of injected ^{85}SR tissues and bones of, 331
Pigs, performance and thyroid status of
Effects of protein source, goitrogens and iodine level on, 1106
Pigs, stress susceptible and stress resistant
Isometric contractile properties of skeletal muscle from, 68
Pigs, turbinate morphology and performance in
Effect of dietary calcium-phosphorus and nasal irritation on, 544
Plasma calcitonin *in vivo*, measurement of
In the pig using a chronically-implanted catheter for infusion and blood sampling, 885
Plasma glucose, urea and amino acid levels in sheep
Duodenal protein infusions and, 775
Placement
276, 446, 650, 824, 1007, 1247.
Porcine conceptus, the
Effect of progesterone induced increase in uterine secretory activity on development of, 743
Pork, I. Influence of roasting fresh

Effects of processing on the major fatty acids of separable porcine tissues, 309
II. Influence of curing and cooking, 317
Pork bellies, composition of
I. Specific gravity as a predictor of chemical composition, 1032
II. Compositional variation between and within animals and the relationship of various carcass measurements with the chemical components of the belly, 1037
Processing method of broiler litter, effect of
On nitrogen utilization by lambs, 942
Progesterone and estradiol
Prepartum and postpartum levels of, in beef heifers fed two levels of energy, 380
Progesterone concentration in blood of mares
During the estrous cycle, pregnancy and after hysterectomy, 759
Progesterone, exogenous
Dose-response relationships between, and estradiol and porcine uterine protein secretions, 747
Progesterone induced increase in uterine secretory activity, effect of
On development of the porcine conceptus, 743
Prostaglandin $F_2\alpha$
Induction of abortion in mares with, 404
Prostaglandin $F_{2\beta}$
Induction of abortion in mares with, 404
Prostaglandin $F_2\alpha$effect of
On luteal function in swine, 392
Protein and energy levels, effect of
On lamb carcass composition, 325.
Protein binding (CPB) assay
Measurement of bovine plasma testosterone by radioimmunoassay (RIA) and by a rapid competitive, 720
Protein, dietary
Pituitary gonadotropins in boars as affected by, and age, 601
Protein, effect of supplemental
On the nutritive value of high and low tannin *sorghum bicolor* (L.) Moench grain for the growing rat, 500
Protein, effects of levels and sources of
On performance and carcass characteristics of steers fed all-concentrate rations, 102
Protein, formaldehyde-treated
Evaluation of, for growing lambs and lactating cows, 796
Protein infusions, duodenal
And plasma glucose, urea and amino acid levels in sheep, 775
Protein level, effect of
On growth, nitrogen balance and reproductive performance in gilts, 1067
Protein levels, evaluation of
And milk products for pig starter diets, 527
Protein quality
For the nonruminant herbivore, 506
Protein restriction, effect of maternal energy *vs.*
On growth and development of progeny in swine, 703
Protein secretions, porcine uterine
Dose-response relationships between exogenous progesterone and estradiol and, 747
Protein source, goitrogens and iodine level, effects of
On performance and thyroid status of pigs, 1106
Protein-sources, preformed
In steer finishing rations, 818
Protein supplement, a liquid
Effects of soyflour in milk replacer followed by, on the growth of young lambs, 102
Protein utilization in calves
Energy and, fed via rumen by-pass, 108

R

Rabbit oviduct, the
The fertilizing life of spermatozoa in, 373
Radioimmunoassay
Of porcine FSH, 348
Radioimmunoassay (RIA)
Measurement of bovine plasma testosterone by, and by a rapid competitive protein binding (CPB) assay, 720
Ram
Development changes in spermatogenesis, testicular carnitine acetyltransferase activity and serum testosterone in the, 889
Ram lambs
Dominance and mating behavior in, 725
Rams, Dorset or Blackface
Reproductive performance of Dorset X Western ewes when mated to, 18
Rat and pig, digestion of sorghum grain endosperm in the
Observed by scanning electron microscopy, 1099
Rat, the female
Effect of age at mating on the prenatal and postnatal performance of, 846
Rat, the growing
Effect of supplemental protein on the nutritive value of high and low tannin *sorghum bicolor* (L.) Moench grain for, 500
Rates of *in vitro* forage fiber digestion
As influenced by chemical treatment, 808
Rations based on urea and corn silage
Nutrient digestibility and N-metabolism by cattle fed, 408
Rations, high concentrate beef cattle
Influence of processing methods on digestion of sorghum starch in, 417
Rations, steer finishing
Preformed protein sources in, 818
Regression luteal
Effect of actinomycin D on, induced by intrauterine devices, 83
Report, Committee, 648
Reports, Committee, 261
Reports from Representatives of the Society, 272
Reproductive organ weights in young boars, 575
A comparison or regular ejaculation with sexual rest on semen characteristics and, 575
Reproductive performance of beef cattle
Effects of supplemental energy and season of breeding on the, 281
(Ruelene®), 4-tert-butyl-2-chlorophenyl methyl methyl-phosphoramidate
Teratogenicity to 35-day fetuses, excretion patterns and placental transfer in beef heifers administered, 386
Rumen by-pass
Energy and protein utilization in calves fed via, 108
Rumen microorganisms, biuretolytic activity of
As influenced by the levels of dietary biuret, urea or soybean meal, 937
Ruminal bypass of dietary soybean protein
Treated with heat, formalin and tannic acid, 952
Ruminants
Influence of organic acids upon feeding value of dry, reconstituted and early harvested milo for, 286

Ruminants
Methionine, DL-homocysteine thiolactone and N-acetyl-DL-methionine for, 612
Ryegrass straw silage
Effect of various additives on,. I. Laboratory silo and *in vitro* dry matter digestion observations. II. Animal metabolism and performance observations, 926

S

Sartorius, porcine
Fetal and neonatal development of spindle capsules and intrafusal myofibers in the, 42
Season of breeding
Effects of supplemental energy and, on the reproductive performance of beef cattle, 281
Selection, effectiveness of reciprocal
For performance of crosses between Montana No. 1 and Yorkshire swine. III. Expected and actual response, 24
Selenium in reproductive diets, efficacy of supplemental
On sow and progeny performance, 536
Semen characteristics
A comparison of regular ejaculation with sexual rest on, and reproductive organ weights in young boars, 575
Serum levels of follicle-stimulating hormone
During the bovine estrous cycle, 360
Serum testosterone in the ram
Developmental changes in spermatogenesis, testicular carnitine acetyltransferase activity and, 889
Sheep
Changes in nitrogenous compounds of the whole corn plant during ensiling and subsequent effects on dry matter intake by, 629
Effect of rate of release of urea on its utilization by, 618
Effects of level of nutrition, pregnancy and age on the composition of the wool-free ingesta-free body and carcass of, 687
Pancreatic lipase secretion by, 947
Sheep, amino acid levels in
Duodenal protein infusions and plasma glucose, urea and, 775
Sheep, chemical defleecing of
Under two divergent diets, 655
Sheep, the nutritional status of
Factors affecting blood urea nitrogen and its use as an index of, 435
Sorghum bicolor (L.) Moench grain, high and low tannin
Effect of supplemental protein on the nutritive value of, for the growing rat, 500
Sorghum grain endosperm, digestion of
In the rat and pig observed by scanning electron microscopy, 1099
Sorghum starch, digestion of
Influence of processing methods on, in high concentrate beef cattle rations, 417
Sorghum starch digestion, the site and extent of
Influence of degree of micronization on, in beef cattle fed high concentrate rations, 958
Sows
Secretion rates and chemical composition of oviduct and uterine fluids in, 582
Sows and gilts, pregnant
Choline requirement of, under restricted feeding conditions, 1113
Sows, efficacy of different phosphorus supplements for
During gestation and lactation, 1117
Sows, ovariectomized
Reproductive hormones in blood and urine of, 606
Soybean meal
Urea *versus* as supplements for corn silage fed to heifers and dry cows, 1180
Soybean protein, dietary
Ruminal bypass of, treated with heat, formalin and tannic acid, 952
Soybeans, cooked
In swine and rat diets, 1082
Soyflour in milk replacer, effects of
Followed by a liquid protein supplement on the growth of young lambs, 97
Specific gravity as a predictor of chemical composition
Composition of pork bellies: I., 1032
Sperm, output of
Reproductive physiology of the stallion. II. Daily production and, 732
Sperm reserves
Reproductive physiology of the stallion. III. Extra-gonadal transit time and, 737
Spermatogenesis, developmental changes in
Testicular carnitine acetyltransferase activity and serum testosterone in the ram, 889
Spermatozoa, bovine
Components in egg yolk which protect, during freezing, 1144
Spermatozoa, the fertilizing life of
In the rabbit oviduct, 373
Spindle capsules, fetal and neonatal development of
And intrafusal myofibers in the porcine *sartorius*, 42
^{85}SR tissues, injected
Distribution of, and bones of growing pigs, 331
Stallion, reproductive physiology of the
II. Daily production and output of sperm, 732
III. Extra-gonadal transit time and sperm reserves, 737
Steers
Metabolic fate of oral diethylstilbestrol in, 1185
Steers fed all-concentrate rations
Effects of levels and sources of protein on performance and carcass characteristics of, 102
Steers fed tall fescue, alfalfa and orchardgrass hay
Digestibility and rate of passage by, in 18 and 32 C ambient temperatures, 93
Steers, growing and finishing
Utilization of a formaldehyde treated casein-safflower oil complex by, 124
Steers, Hereford and Holstein
Comparison of tissue enzyme levels and carcass characteristics in, 865
Steers, yearling
Limited energy supplementation of, grazing irrigated pasture and subsequent feedlot performance, 827
Steroids, endogenous
Relationships between the luteinizing hormone response to gonadotropin releasing hormone and, 355
Swine
Arginine: A nonessential amino acid for postpubertal growth and pregnancy of swine, 1123
Cellulose and hemicellulose digestibility in the stomach, small intestine and large intestine of, 53
Swine, cooperative regional studies with:
Effects of vitamin E and levels of supplementary copper during the growing-finishing period on gain, feed conversion and tissue copper storage

in swine, 512
Swine, crosses of high- and low-fat lines of
Genetic and maternal effects in pre-weaning traits in, 1
Swine, diets for
Value of alfalfa meal and wheat bran in, during prefarrowing and lactation, 838
Swine, genetically lean and obese
Lipogenesis and cellularity of adipose tissue from, 712
Swine, growth and development of progeny in
Effect of maternal energy *vs.* protein restriction in, 703
Swine, hematinics for
Oral iron dextran and iron from steel slate as, 699
Swine, luteal function in
Effect of prostaglandin $F_{2\alpha}$ on, 392
Swine, Montana No. 1 and Yorkshire
Effectiveness of reciprocal selection for performance of crosses between. III. Expected and actual response, 24
Swine, prediction of composition of crossbred
From birth to 136 kg live weight via the liquid scintillation whole body counter, 855
Swine, terminal heat stress in
Physiological and endocrinological changes in response to, 79
Swine, the rate of passage of grain diets in
Site and extent of carbohydrate, dry matter, energy and protein digestion and, 57

T

Temperatures, 18 and 32 C ambient
Digestibility and rate of passage by steers fed tall fescue, alfalfa and orchardgrass hay in, 93
Testosterone, effects of endogenous
On production and carcass traits in beef cattle, 680
Testosterone, measurement of bovine plasma
By radioimmunoassay (RIA) and by a rapid competitive protein binding (CPB) assay, 720
Thermal changes of the bovine uterus
Following administration of estradiol-17β
Thyrotropin (TSH) radioimmunoassay, a specific
Development of, from non-specific antisera, 768
Tissue enzyme levels, comparison of
And carcass characteristics in Hereford and Holstein steers, 865
Tissue-sawdust technique, evaluation of a
For predicting beef carcass composition, 849
Tissue, separable porcine
Effects of processing on the major fatty acids of, I. Influence of roasting fresh pork, 309
Traits, preweaning
Genetic and maternal effects in, in crosses of high- and low-fat lines of swine, 1 Heterosis and breed effects in, of Angus, Hereford and reciprocal cross calves, 11
Traits, weaning
Effect of heterosis and maternal influence on, in reciprocal crosses among Angus, Charolais and Hereford cattle, 471

U

Urea, effect of rate of release of
On its utilization by sheep, 618
Urea utilization by beef cattle
Effect of alfalfa solubles on, 1158
Urea *versus* soybean meal
As supplements for corn silage fed to heifers and dry cows, 1180
Uterus, the bovine
Thermal changes of, following administration of estradiol-17β

V

Venoarterial pathways, local
Internal regulation of physiological processes through,: A review, 550
Vitamin A, transfer of
From bovine liver to milk, 813
Vitamin E, effects of
Cooperative regional studies with growing swine:, and levels of supplementary copper during the growing-finishing period on gain, feed conversion and tissue copper storage in swine, 512

W

Weaning, effects of early
On postpartum reproduction of the dam and growth of calves born as multiples or singles, 589
Wheat bran in diets for swine
Value of alfalfa meal and, during prefarrowing and lactation, 838
Whey and lactose, comparison between
As alfalfa haylage additives, 115
Whole body counter, the liquid scintillation
Prediction of composition of crossbred swine from birth to 136 kg live weight vis, 855
Wine in a new skin, old
Or animal behavior in the modern animal science curriculum, 441

AUTHOR INDEX FOR VOLUME 39, 1974

Page numbers of abstracts for the National and Sectional Meetings are identified by an asterisk.
